

# Healthcare Bots and Subject Directories 2018

By

**Marcus P. Zillman, M.S., A.M.H.A.**  
**Executive Director – Virtual Private Library**

This white paper link compilation is designed to give you the latest resources available to find selected and niched information in the healthcare field for healthcare research both professional and personal. It is divided into two categories: a) Search Engines and Selected Bots, and b) Directories, Subject Trees and Subject Tracers. These resources allow you to begin your research using the latest sources that are available on the Internet. Using both bots and subject directories to initialize your healthcare research allows one to create a broad spectrum approach to the information available.
