# Marcus P. Zillman, M.S., A.M.H.A.

Marcus P. Zillman, M.S., A.M.H.A. is the Executive Director of the Virtual Private Library, eSolutions Architect and an Internet expert, tutor, author, keynote speaker and corporate consultant. He is the founder creator of BotSpot.com, one of the Internet's most awarded sites and selected as one of the all time best 100 sites on the Internet by PC magazine.  He has been involved with the Internet for over thirty years and is a past active member of the management agency Internet Engineering Task Force (IETF) that writes the controlling protocols for the Internet. He was selected by the US Government as a non-government expert on information retrieval and continues to design databases and Subject Tracer™ Information Bots that scour the Internet for information!  He has written over 150 Internet publications, including mini-guides, manuals and white papers.  One of his white papers is titled **Deep Web Research and Discovery Resources 2024**, and is available at http://DeepWeb.us/  and all his freely available whitepapers have been downloaded over 15,000,000 times!  He was acknowledged by Range Rover's OneLife Magazine as one of the top 20 Innovators in the world. His passion and specialty is Internet consulting and auditing for the business person, entrepreneur, non-for profit, academic and professional. He continues his monthly column and freely available monthly Awareness Watch Newsletter.  His topic today will be **Past, Present and the Future of the Internet** including GenerativeAI, CryptoCurrency,  Bots, Web 3, Deep Web, MetaVerse and More.
