Online social networks are becoming a true growth point of the Internet. As individuals constantly desire to interact with each other both in business and in personal contacts, the ability for the Internet to deliver this networking capability grows stronger and stronger. There are a number of excellent resources available to anyone interested in becoming part of the online social networking community of the Internet. I have listed and briefly annotated a number of resources and sites that will start you on your knowledge discovery for online social networking on the Internet. This Internet MiniGuide on Online Social Networking is a freely available download at the below Subject Tracer™ Information Blog and is frequently updated. Also available as a free download is the white paper link compilation

## **100 Million Spiders : An Experiment In Social Networking**

<http://www.100millionspiders.com/>

100 Million Spiders is a social networking experiment operating on a principle similar to 6 degrees of separation. It creates social networks between users (friends, acquaintances and colleagues) by collating threads. It is a closed community, if you have not been sent an invite by someone on the system you'll not be able to use the system.

## **Affinity Engines**

<http://www.AffinityEngines.com/>

Affinity-based social networking. Affinity Engines is a technology company that provides a secure infrastructure for private-label online social networks. Affinity networks help individuals build and maintain personal and professional connections in a trusted and secure online community

## **AlwaysOn**

<http://alwayson-network.com/>

AO is the only media brand to combine traditional news and analysis, participatory journalism (blogging), and a powerful social network (AO Zaibatsu) for a growing membership base of senior executives, technology geeks, and investors from a broad selection of industries. No other media brand has dared allow such openness and collaboration amongst its readers and event participants.

## **Business Parc**

<http://www.BusinessParc.com/>

Grant Watling founded Businessparc.com Limited in March 2003 to help internet users find products and services in a new way. Instead of the user making contact with businesses to research prices and services, Businessparc will forward requests to all relevant businesses and make the contacts free of charge.

military.

### **Craigslist**

<http://www.Craigslist.org/>

Craigslist is about 1) giving each other a break, getting the word out about everyday, real-world stuff; 2) restoring the human voice to the Internet, in a humane, non-commercial environment; 3) keeping things simple, common-sense, down-to-earth, honest, very real; 4) providing an alternative to impersonal, big-media sites; 5) being inclusive, giving a voice to the disenfranchised, democratizing ...; and 6) being a collection of communities with similar spirit, not a single monolithic entity.

### **del.icio.us**

<http://del.icio.us/>

del.icio.us is a social bookmarks manager. It allows you to easily add sites you like to your personal collection of links, to categorize those sites with keywords, and to share your collection not only between your own browsers and machines, but also with others. What makes del.icio.us a social system is its ability to let you see the links that others have collected, as well as showing you who else has bookmarked a specific site. You can also view the links collected by others, and subscribe to the links of people whose lists you find interesting.

### **Friendster (beta)**

<http://www.friendster.com/>

Friendster is an online community that connects people through networks of friends for dating or making new friends.

### **GoodContacts**

<http://www.GoodContacts.com/>

GoodContacts is a world leader in managing contact data quality. The Professional and Enterprise product families deliver solutions that span customers ranging in size from a individual business professional to a large enterprise. Solo products verify and update contact data for professionals and businesses managing large contact lists in Outlook, Outlook Express or ACT! while Enterprise products maintain the integrity and accuracy of contact data across enterprise-wide databases, CRMs or personal contact managers.

### **Guide To Online Social Networks, Social Software and Business Communities**

<http://www.onlinebusinessnetworks.com/online-social-networks-guide/index.php>

You may notice, not all of the sites covered here fall into the category "social networking sites". They have elected not to make that distinction because... a) social networking takes place in online communities whether they are explicitly known as "social networking sites" or not, and b) the boundaries are just too fuzzy.

## **Huminity – Social Networking**

<http://www.huminity.com/>

They believe that people will achieve more by helping each other and that it is time the Internet evolves for people as much as it has evolved for corporates. They believe the Internet's greatness is the interaction it brings between people and they hope that Huminity will take this one step further, and through combining Instant Messaging with Social Networks open a whole range of possibilities to enrich everyone's life. Huminity is built to facilitate friendships, make it easy for people to find and make friends, find jobs faster, make better deals and reach anyone in the world. Above all - to have fun!
